Continuation of Substance of Interview including description of the general nature of what was discussed:

Mr. Barth requested an Supplemental Examiner's Amendment to correct the following obvious typographical errors in the previous Examiner's Amendment (i.e., in claims 34, 37, 46, "consists" should read "consists essentially of" -- consistent with the language used in claim 1 -- in regard to the composition of layer R1, as agreed upon in the earlier interview on 7/12/2005).
